CAREER OBJECTIVE

Aspiring Python Full Stack Developer seeking an entry-level position to apply foundational knowledge of Python programming, front-end technologies, and databases in a collaborative team environment. Eager to contribute to innovative projects while honing skills in software development and continuous learning.

ACADEMIC

➜ Bachelor's of Technology with Specialization in Civil Engineering from Audisankara College of Engineering and Technology with an aggregate of **7.96 CGPA** in **2024**.

➜ Intermediate with Specialization in Mathematics from Board of intermediate with an aggregate of **7.21 CGPA** in **2020**.

➜ SSC from School Secondary Board of AP with an aggregation of **9.2 CGPA** in **2018**.

TECHNICAL SKILLS

- o **Programming Language**   : Python.
- o **Databases**   : MySQL, MS SQL Server, Postgres SQL.
- o **Web Technologies**   : HTML, CSS, JavaScript.
- o **Framework**   : Django, React JS, Bootstrap.
- o **Development Environments**   : Visual Studio Code
- o **Operating Systems**   : Windows, macOS

PROJECTS

Project Name: - Smart Hotel Management System
Description: -

  Developed a **Smart Hotel Management System** for **desktop use** using **Django (Python), HTML, CSS, JavaScript, and MySQL** to streamline hotel operations. The system includes **Home, Menu, Table Booking, Contact Us, and About Us** sections, providing an efficient and user-friendly experience. It features a **login and signup system** with two user roles: **Admin and Customer**. The **Admin** has full access to manage bookings, view customer details, and oversee reservations through a dedicated **bookings table**. Implemented **automated email notifications** for booking confirmations and user interactions. Designed an **intuitive interface** to ensure smooth functionality and easy navigation.

Project Name: - Earthmovers Website – Frontend Project
Description: -

  Developed a responsive and interactive website for an Earthmovers company using **HTML, CSS, and JavaScript**. The project includes key sections such as **Home, Services, About Us, Blogs, Quote Request, and Contact Details**, providing users with a seamless browsing experience. Implemented **dynamic animations, a responsive layout, and an interactive quote request form** to enhance user engagement. Focused on **UI/UX design principles**, ensuring smooth navigation and accessibility across all devices.

CERTIFICATIONS

- o Python Programming from Value laden.
- o Python Full stack developer from Vcube software solutions.
- o Scratch to advance in GIT Hub from LinkedIn learnings.

DECLARATION

  I hereby declare that the above written particulars are true to the best of my knowledge and belief. References will be provided on requirements.
